

Name: Snow Leopard

Habitat: in the mountains

Country: Asia and India

Appearance: White and black

Why it is endangered:

3. Loss of habitat
4. Hunting and poaching

Number of animals today: 5,000 in the world today

Report: An endangered animal

My favourite endangered animal is the snow leopard.

Snow leopards live in the mountains.

They are white and black.

They eat meat. Snow leopards are endangered because of loss of habitat and hunting and poaching. There are about 5,000 in the world today.
