

POLAR BEAR

Name: Polar bear

Habitat: ice

Country: Arctic

Appearance: It's a mammal. It's big, heavy and it has white fur and strong legs.

Food: fish and seals.

Why it is endangered: Loss of habitat, pollution, hunting and poaching.

Number of animals today: 20.000 polar bears.

REPORT: MY ENDANGERED ANIMAL

My favourite endangered animal is the polar bear. Polar bears live in the Arctic. They are white. Polar bears eat fish and seals. Polar bears are endangered because of loss of habitat, pollution, hunting and poaching. There are about 20.000 Polar bears in the world.
