HOW WE CAN HELP

★ *How we help people at home*

At home, we often help our parents doing the chores. We always make the bed and also we tidy up. We sometimes sweep the floor and do the washing up. We never wash the car because the blue elephant does.

★ *How we helped people last week.*

Last week, I helped my grandmother using the mobile phone, and we helped our mums carrying bags. At school, we helped our classmates. We also took out the rubbish.

OUR IDEAS FOR HELPING PEOPLE IN OUR COMMUNITY.

IDEA 1

Lately the planet is very poorly cared for because we don't recycle and we throw rubbish in the street, that's why we can go with friends to clean the streets with a plastic bag and a pair of gloves.

IDEA 2

If we have clothes that we don't use and it's good enough to use them, we can wash them and donate them to people in need.
