

## the play station

Hello everybody i'm gonna tell the story of

# THE PLAY STATION

Before 1994 the playstation didn't exist (vaya adadup) but before 1994 existed (suuuu) and this planet had fun. In the play one you can play Crash bandicoot and other successes.

In the beginning of the 20 century the playstation 2 appear in the world an it had a lot of successes like GTA San Andreas (all we had to do was follow the damn train CJ)

Then when the mark play station is a success apere the play 3 and it come with a lot of success like two years later of his apere the famous and realistic GTA IV and in 2013 one of the most seller game GTA V

and in 2013 a super success appear in the market with more successi like God of War And the play 4 is one of the most famous consoles in the world and is the best playstation but... (tun tun tuntun)

the playstation five (osea un rascacielos ue te lo venden como consola) appear in the market and in this moment is a success but

not the best it's because is new and it had a lot of bug and in 2023  
is gonna apere the game of wolverine

I hope you like this presentation
